Our Story

What is LabNaturals Skin Care?

LabNaturals is natural rejuvenation in a bottle...for your skin! We combine only the freshest ingredients, taking out all parabens, dyes and chemicals that are harmful to your skin, and leaving you with naturally healthy skin you can see and feel...sometimes in as little as thirty minutes!

The Home of LabNaturals

LabNaturals Skin Care is sold exclusively at Murray Avenue Apothecary, where founder and pharmacist, Susan Merenstein works closely with patients and their doctors to custom compound medicines as alternatives to one-size-fits-all treatment options. These custom compounds are made in our on-site state-of-the-art lab by certified technicians and pharmacists with combined experience of over 50 years!

What's in it?

A topical gel or cream containing nutrients and antioxidants can treat various skin problems such as acne, uneven pigment, dark circles, poor skin tone, fine lines, sagging skin, and loss of radiance. Healthy, beautiful skin is a lifelong commitment. Our outer skin reflects smart lifestyle choices, good nutrition, vitamins, and a positive attitude. Our products repair and rejuvenate your skin without putting your health at risk.

We have developed a complete line of topical antioxidants and nutrients that increase circulation, tighten pores, decrease inflammation, even out the complexion, reduce fine lines and wrinkles, and decrease the aging effects of free radical damage.

Bestsellers

Vitamin C 20% Skin Serum

Wake up dull skin with this potent morning essential vitamin C, which has been shown to help restore collagen and elastin. Caffeine is added to firm the skin, together reducing the signs of aging. The most important skin care product. (Note 1)

L-Retinol Night Serum

The powerful antioxidant combination of Glycolic acid polymer (plant seed) and Vitamin A (L-Retinol) restores and renews your skin by stimulating new tissue growth while you sleep.

Daytime Firming Peptide Lotion

This formula includes DMAE and alpha lipoic acid. DMAE gives greater firming (tone) to the skin, and alpha lipoic acid is considered a more powerful antioxidant per milligram than Vitamin C.

Eye Treatment with Glutathione

Exquisite skin nutrients go to work immediately to reduce the appearance of fine lines and wrinkles around the eyes, the ultimate anti-aging eye cream. Provides nutrients, not drugs for longer thicker eye lashes. This product also contains Glutathione, which increases microcirculation, and enhances skin tone, elasticity and hydration.

Dreamy Night Cream

This product uses a new anti-aging compound, called Glutathione, in a stable form along with hyaluronic acid, carnosine, and many other ingredients found in LabNaturals creams. Glutathione increases microcirculation in the tissues quickly to enhance skin tone and elasticity as well as hydration. Carnosine acts on dark areas of the skin. It is applied at night. Only one application is needed, as the nutrients have a long half-life. This product works even better if used with the LabNaturals anti-aging protocol.

(Note 1) When used with other products it is an even more effective Anti-Aging compound.

Love Your Skin!

“I have seen a huge improvement in just one week, so I am so excited to try more LabNaturals products.”

“LabNaturals Skin Care products are amazing - REALLY! My skin feels fresh and soft.”

“I love LabNaturals! I just started using it 5 days ago and immediately I could see and feel the difference. My skin feels tighter, my pores look smaller, and my acne doesn't seem to be acting up like it usually does.”

“Love the products! Great service. Will continue to order from you for as long as you carry them! Thank you!”
